

Test Case ID: TC005

Webpage URL: <https://github.com/login>

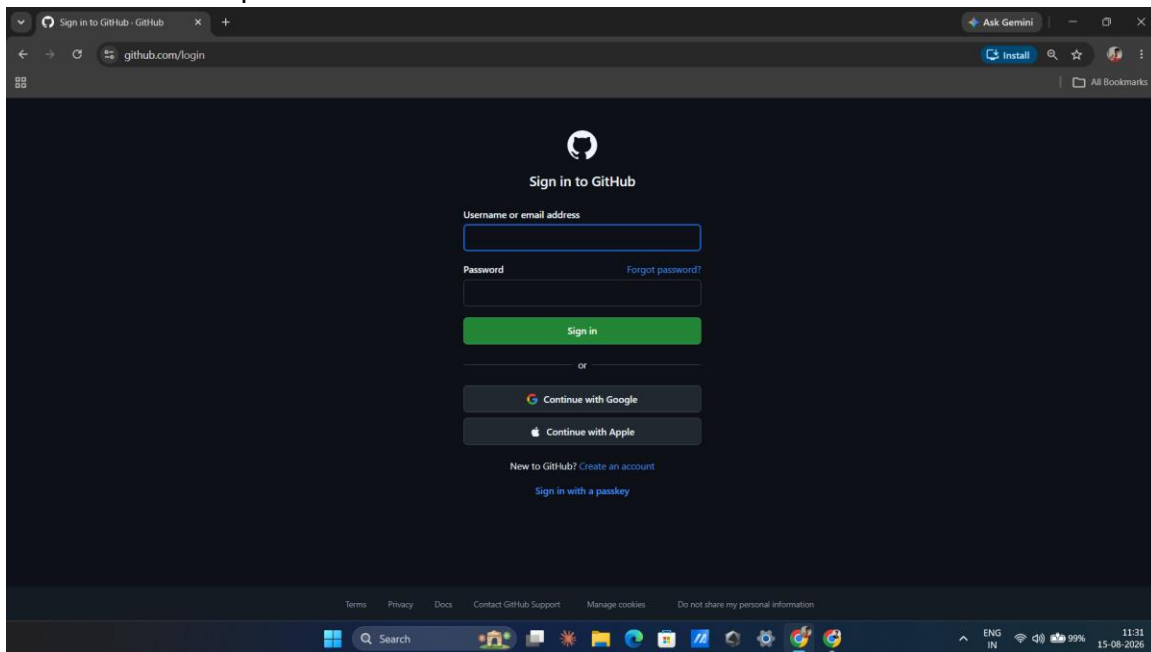

Scenario ID: 1

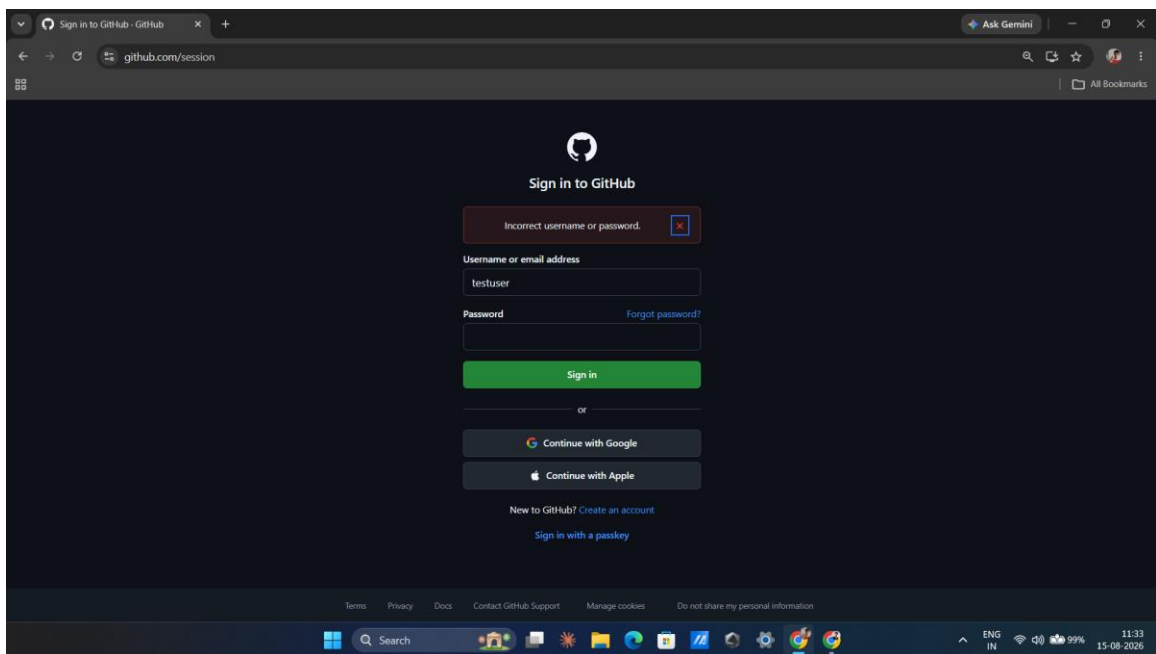

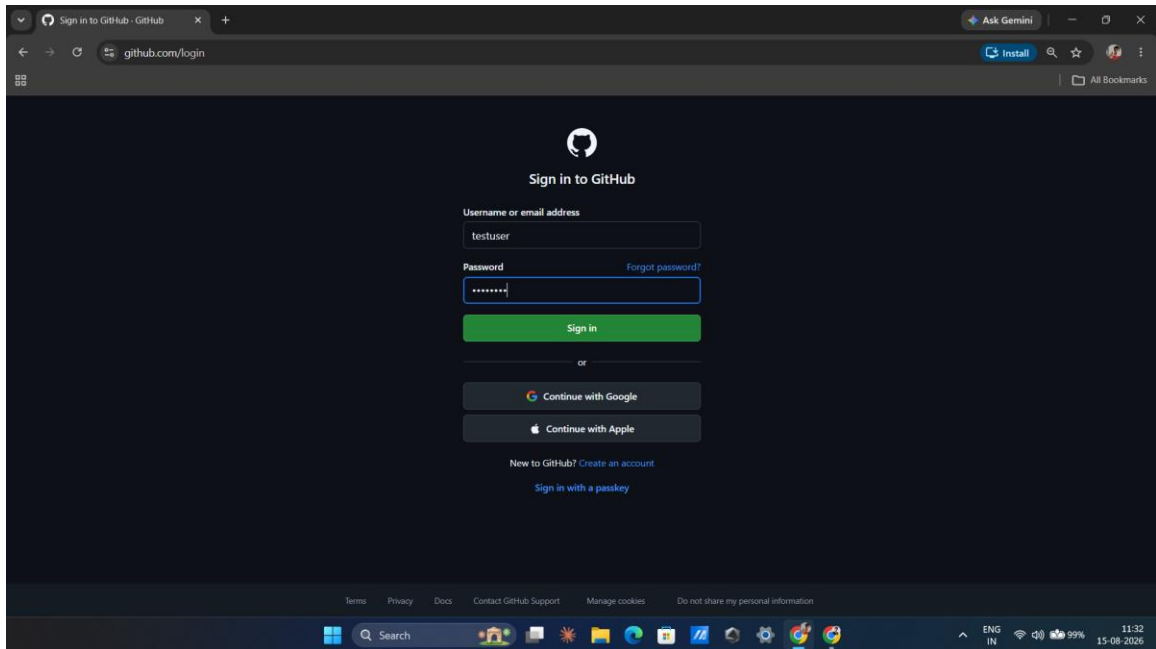

Scenario: Valid Details not allow

Test Steps:

1. Open GitHub Login page
2. Enter username
3. Enter password
4. Click Sign in

Screenshots / Output:

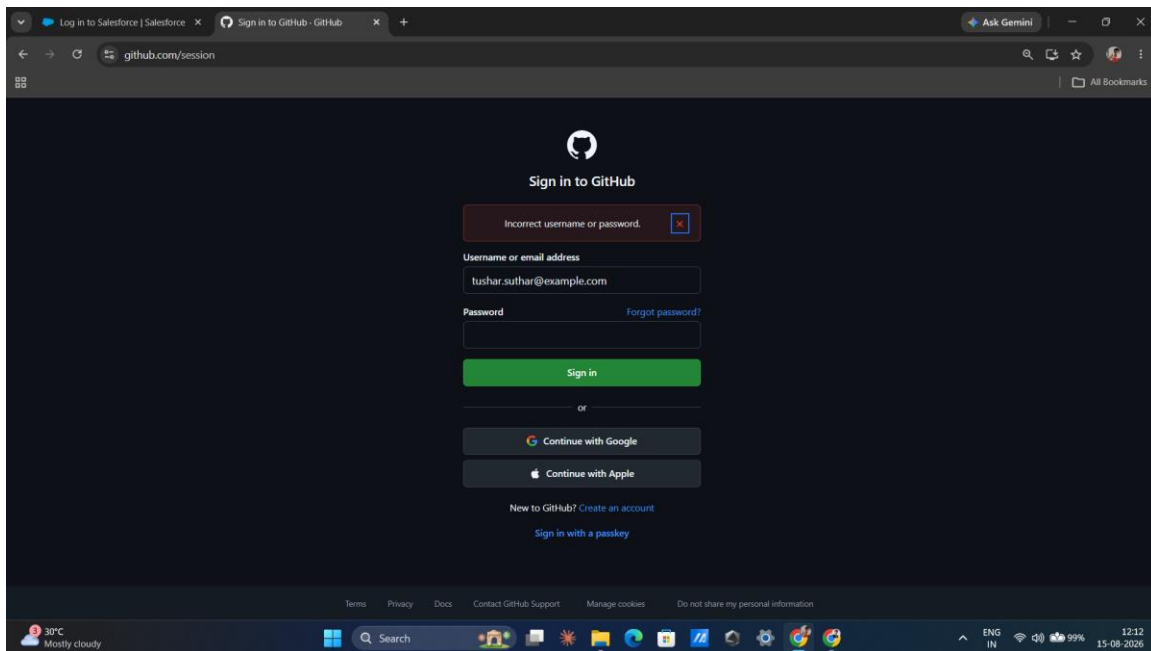

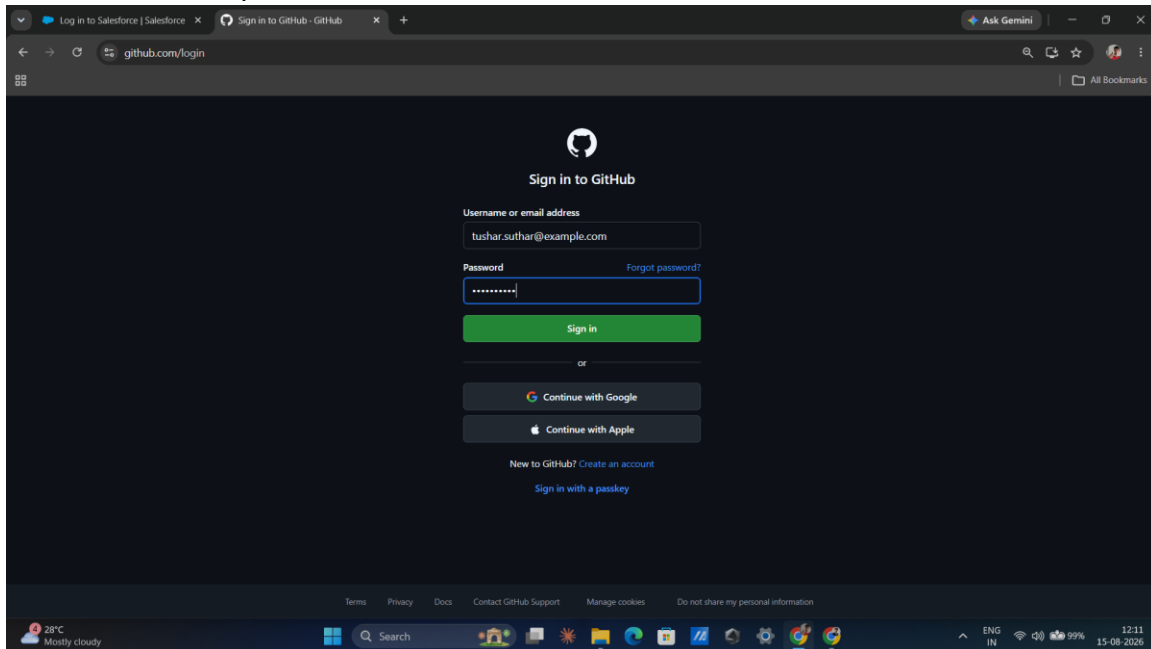

Scenario ID: 2

Scenario: Wrong password error

Test Steps:

1. Enter username: tushar.suthar@example.com
2. Enter password: Wrongpassword123
3. Click Sign in

Screenshots / Output:

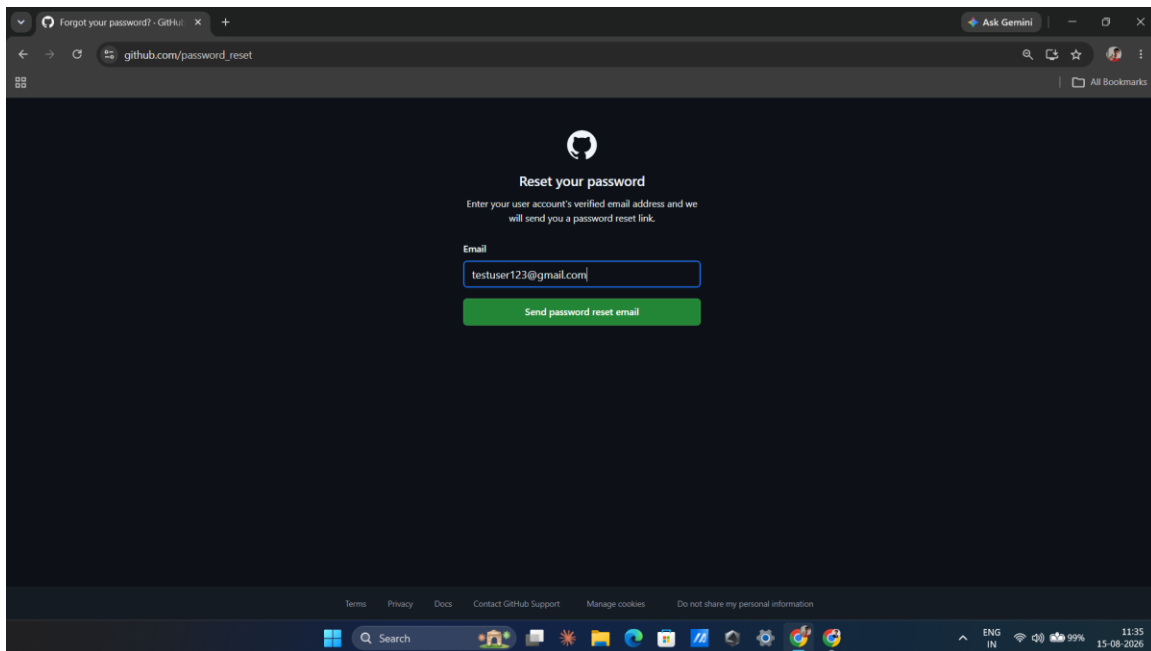

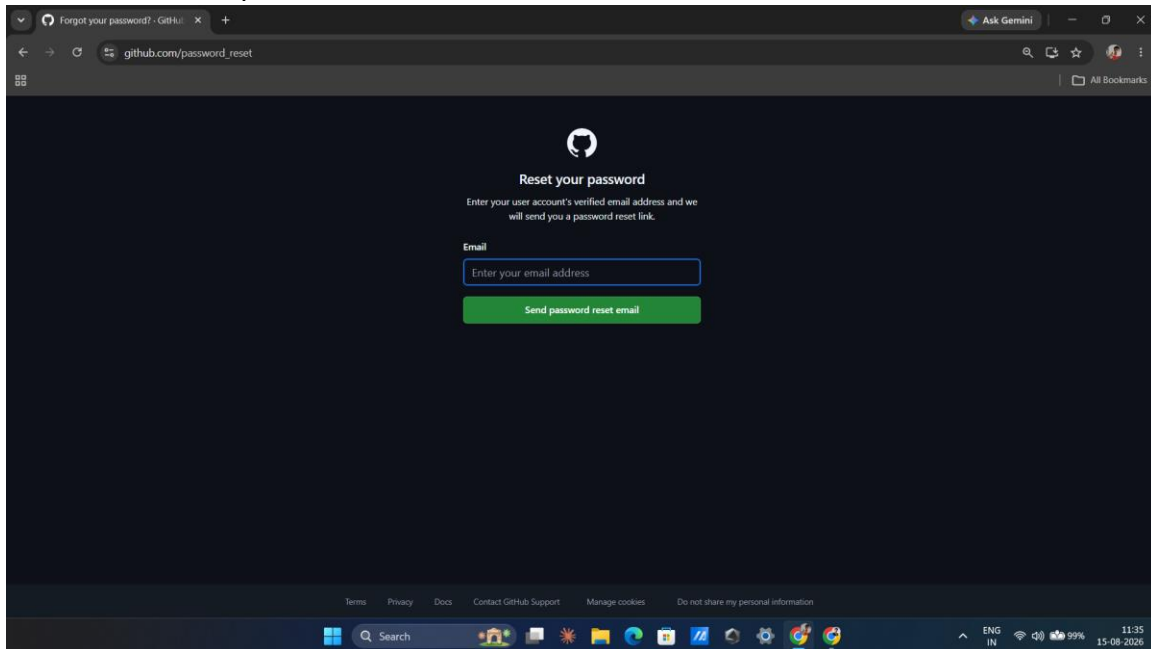

Scenario ID: 3

Scenario: Forgot password link

Test Steps:

1. Click 'Forgot password?'
2. Enter email/username
3. Submit reset request

Screenshots / Output:

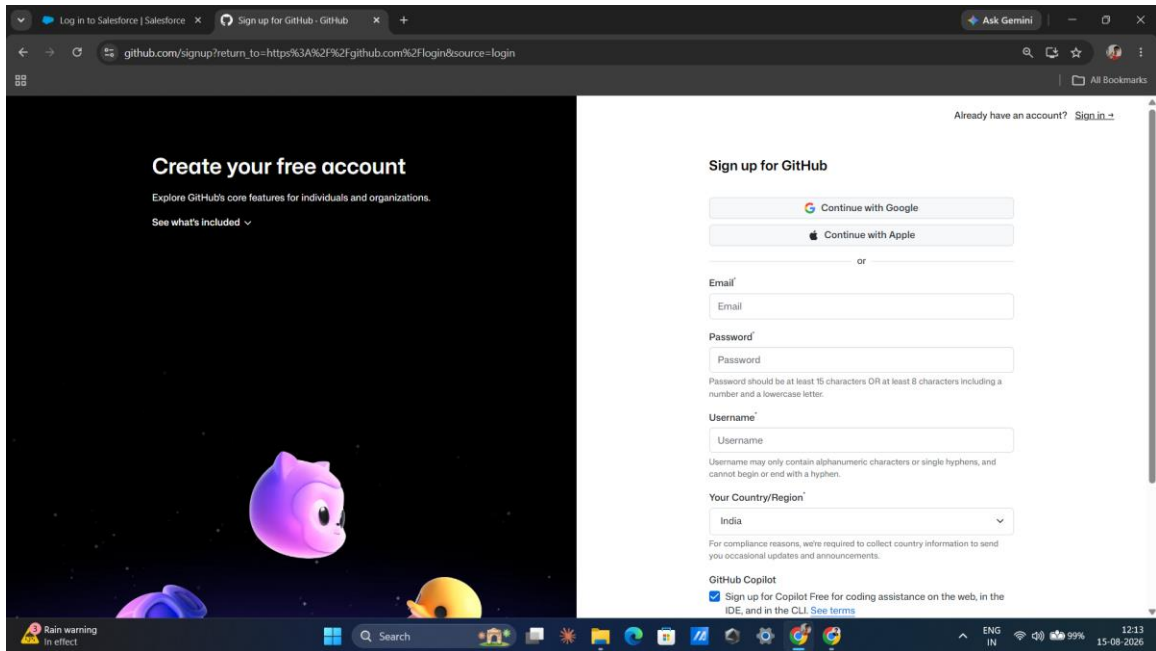

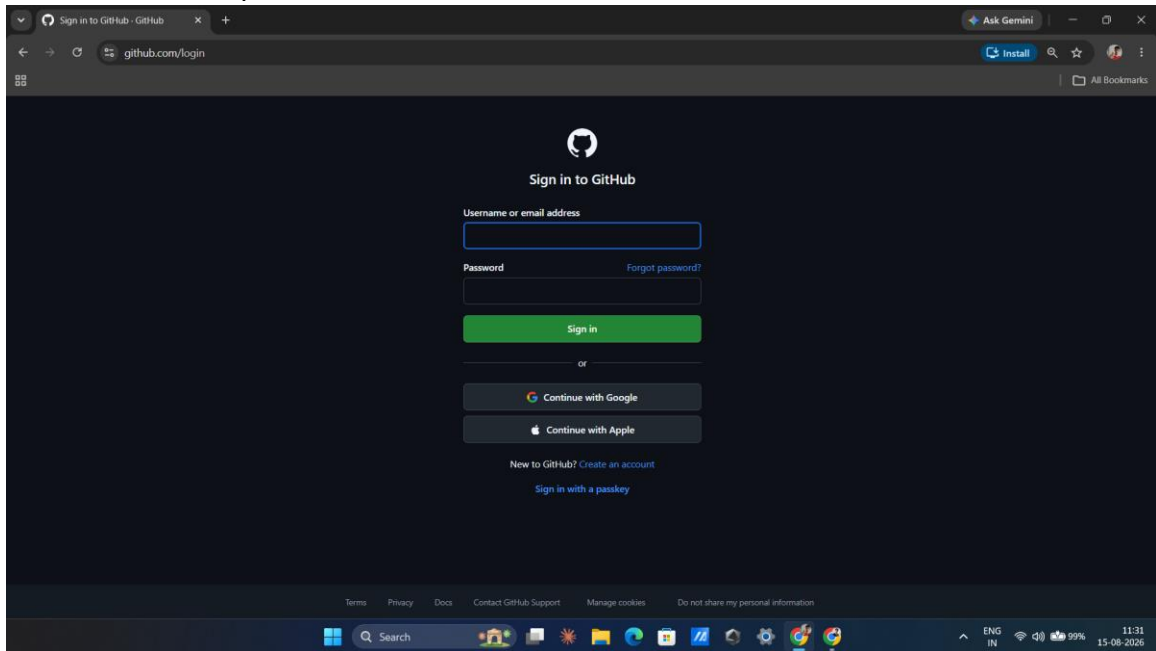

Scenario ID: 4

Scenario: Create an account

Test Steps:

1. Click on Create an account
2. Not Working

Screenshots / Output:

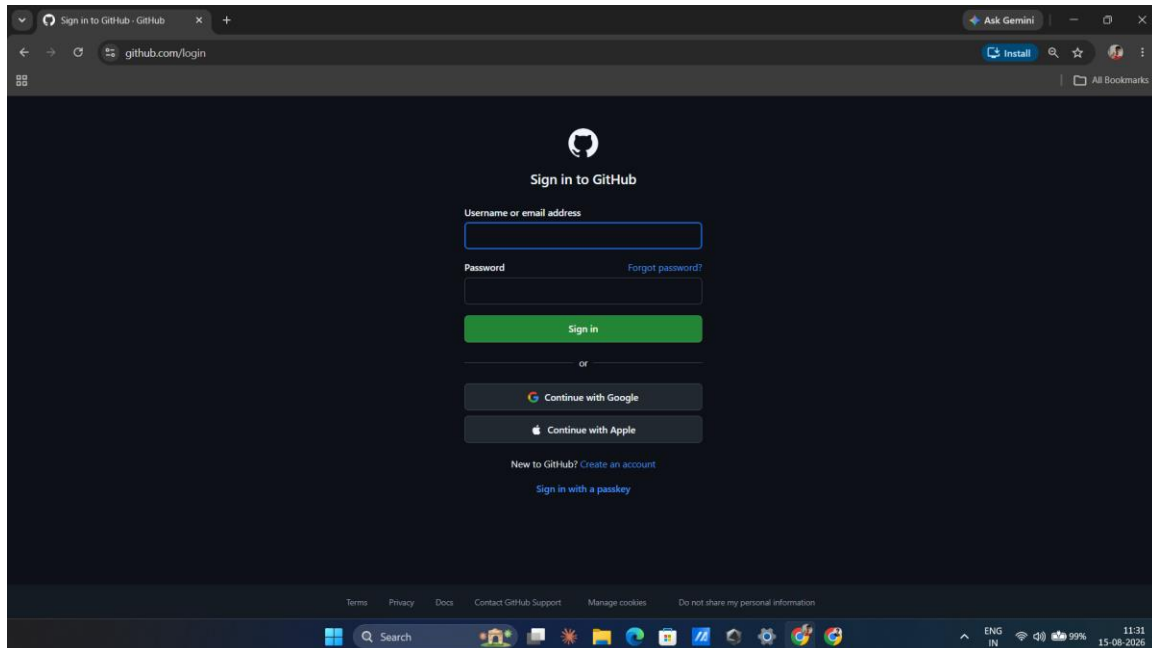

Scenario ID: 5

Scenario: UI defect inspection

Test Steps:

1. Verify alignment of login fields
2. Check labels and buttons

Screenshots / Output:

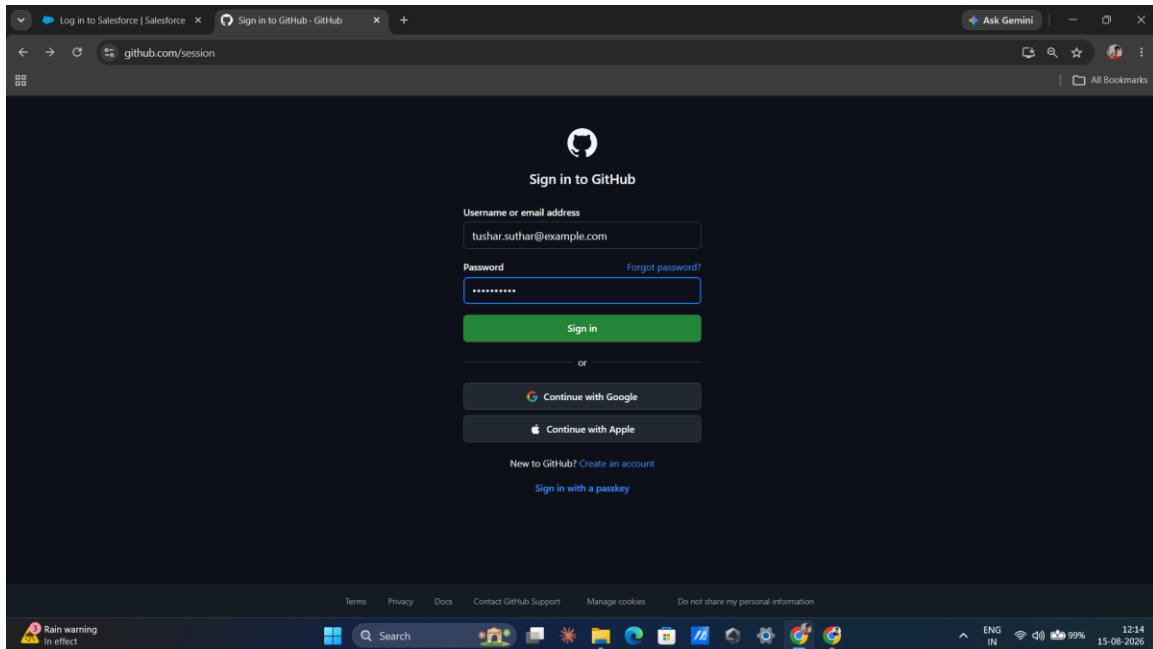

Scenario ID: 6

Scenario: Error message verification

Test Steps:

1. Attempt login with invalid credentials
2. Verify error message

Screenshots / Output:

Summary of Test Results

Total Test Cases: 6

Passed: 5

Failed: 1

Pass %: 83.33%

Conclusion and Recommendations

Bug reporting was completed successfully. Identified defects should be resolved and retested before release.

Bug Report

Field	Description
-------	-------------

Bug ID	BUG-001
Title	Blank username validation missing
Module	Login
Severity	High
Expected Result	Validation message should appear
Actual Result	Login request processed
Status	Open
